

**THERMOPLASTIC
PLAYGROUND MARKINGS**

HELLO!

The School Playground Company combines educational understanding with over 25 years of design experience to create stimulating play environments that allow children to learn in an exciting space.

We pride ourselves in working with you and providing a high quality solution, tailored to your needs.

We specialise in School Playground equipment for Schools and Academies throughout the Midlands including Coventry, Leicester, Nottingham and Birmingham, and our experienced installers are fully insured, and DBS checked. All products we offer & install fully comply with standard BS EN 1176.

We're a small, focused team who believe in doing the job right and pride ourselves on our attention to detail from start to finish, including outstanding after sales service at no extra cost.

VISIT OUR WEBSITE

CONSULT

Book an appointment online or over the phone with our friendly team and we will come to you to discuss your ideas and needs for your new playground.

DESIGN

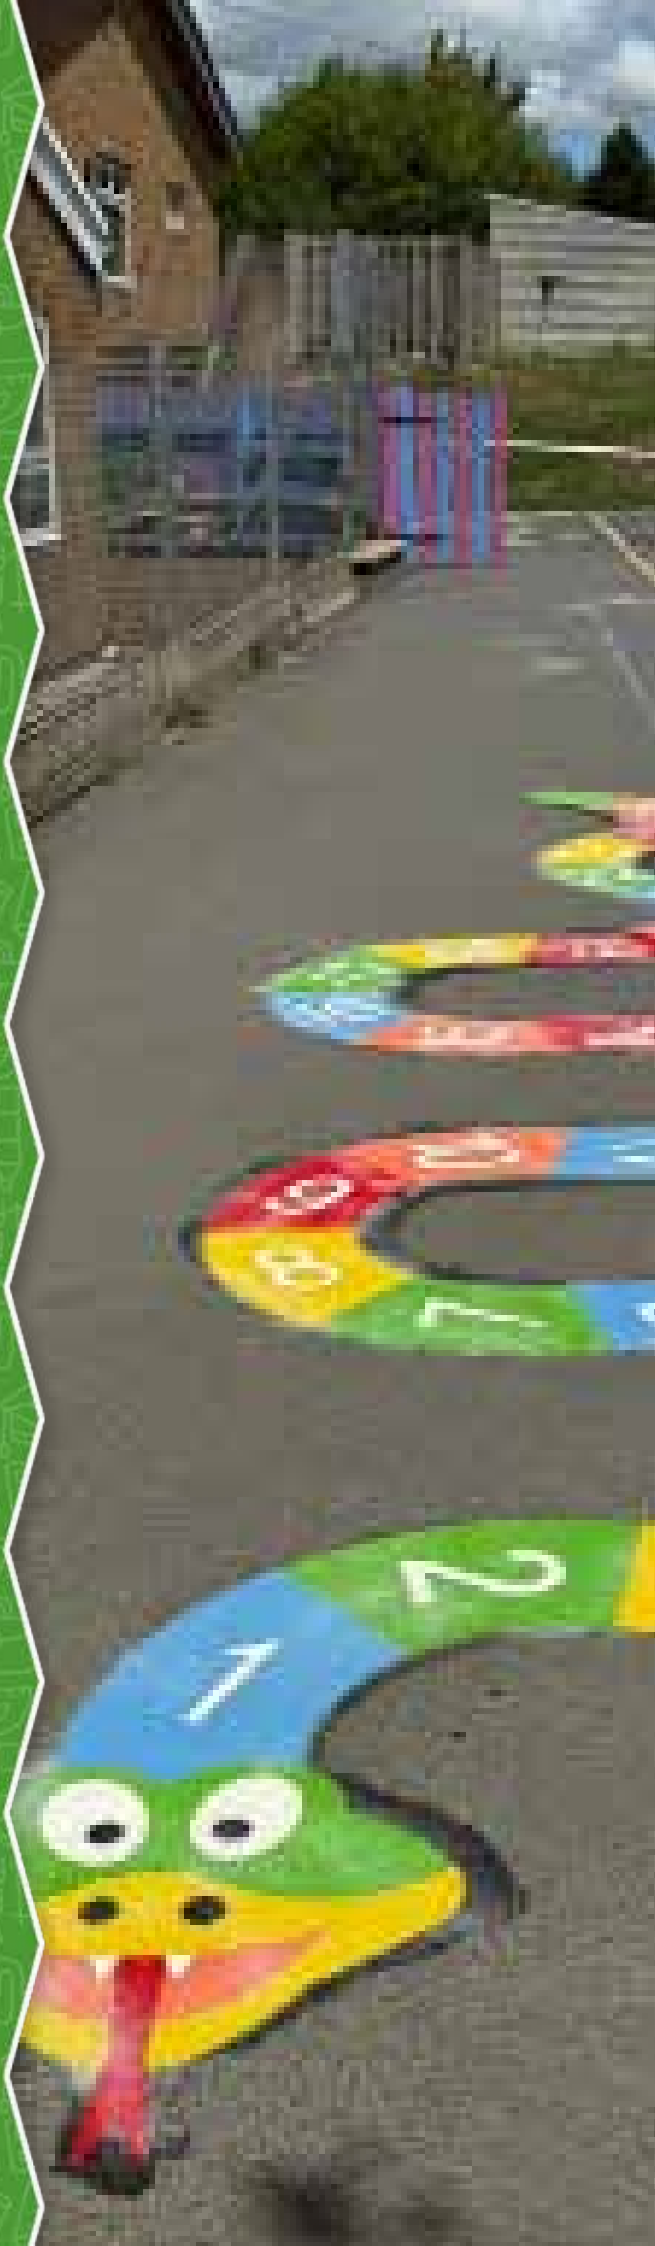

Our team of talented designers will bring your ideas to life with colourful visuals and plans of your new play area. Once you're happy with your design and quote we'll get building.

BUILD

Back in the workshop the team will be busy making your new play equipment. While on site we fully manage the project and deliver to you a safe and sturdy playground.

PLAY!

This is where the fun starts. The children can explore and enjoy their new playground. Our outstanding ongoing after sales care means you can rest assured that everything is taken care of.

ANIMALS

Bring the playground roaring into life with animal themed playground markings! Turn play areas into zoos, jungles, farmyards, or even the deep seas with your choice of animal markings.

These designs help to educate children by familiarising them with different animals as well as making the playground a more fun, exciting place to be.

All of our markings use vibrant colour and creative design to craft the perfect designs for nursery and EYFS playgrounds. The animals' friendly smiles and dynamic poses build characters that children will love and include in their imaginative games with peers. Identification with characters like this is incredibly valuable for developing individuality, empathy, and imagination in primary school children. Therefore, we recommend these markings for nursery and school playgrounds looking to add some inspiration or theming to their play spaces.

LAND ANIMALS

ANIMALS

We recommend animal playground markings to put the finishing touches on your nursery or EYFS learning area. Children love the colourful and friendly designs that add something special to your outdoor surfaces.

Encourage a love for nature with animal play markings, including insects, farm animals, and jungle or savannah creatures.

Expand imaginations and inspire new games among younger children with the Fearsome Captain Parrot!

EDUCATION

Make learning fun for your students! Engage children with bright colours, inventive designs, and the best educational games to enhance mental and social development.

Our educational range of playground markings is designed to support the development of key skills across subjects, including maths, literacy, geography, and science, all while creating a unique and captivating space where children can engage with learning in a completely new way!

Hands-on discovery of and interaction with lesson topics through the medium of play can help children who may not thrive in a traditional classroom setting to practice and experience learning in a way that better supports their preferred learning style. Our playground markings support our dedication to inspire and supporting outdoor learning as a valuable aspect of childhood development that should be encouraged in all school and nursery environments.

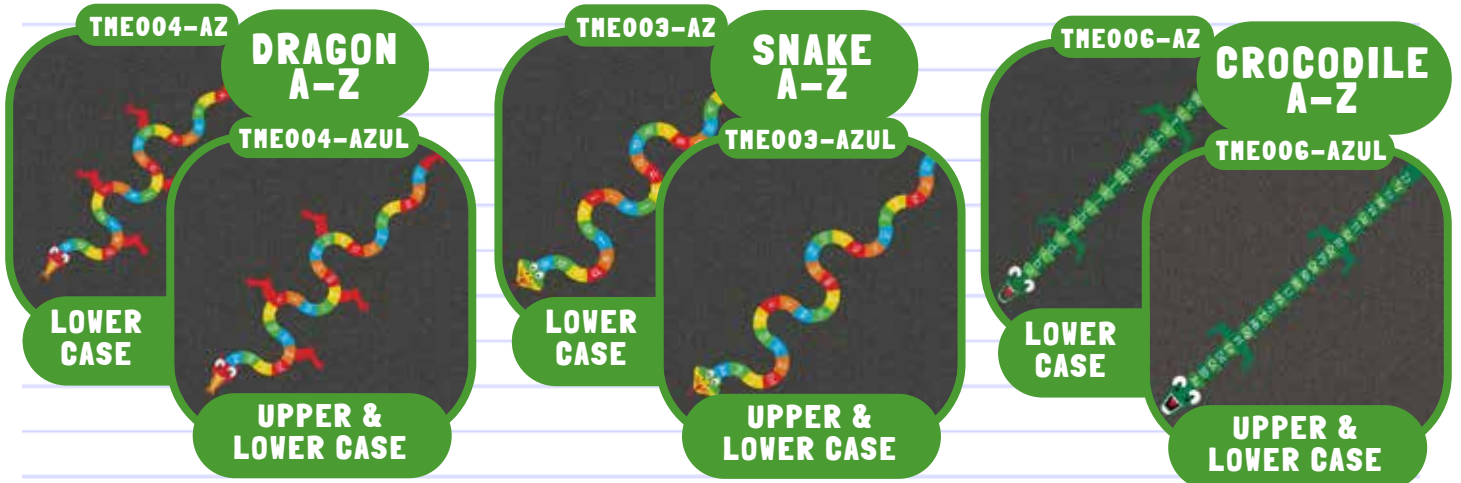

LITERACY

EDUCATION

Education has never been so fun or colourful! Immerse your students in literacy learning with this range of playground markings designed as a learning tool for a range of complex literacy skills such as the alphabet, phonics groups, spelling rules and more!

As the perfect combination of learning, activity, and fun, educational play markings offer a wide range of ways to play. Active play- running along alphabet snakes or jumping between different phonics groups- helps children get used to reading in all kinds of contexts, helping them understand literacy in a whole new way.

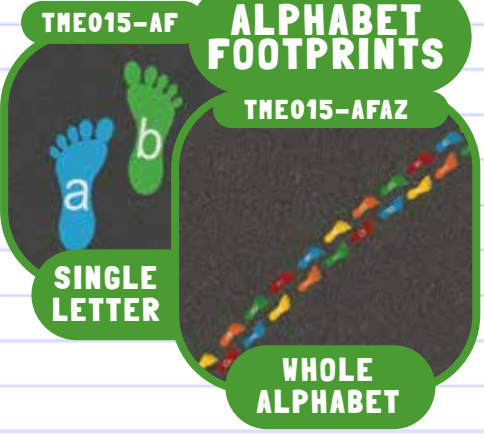

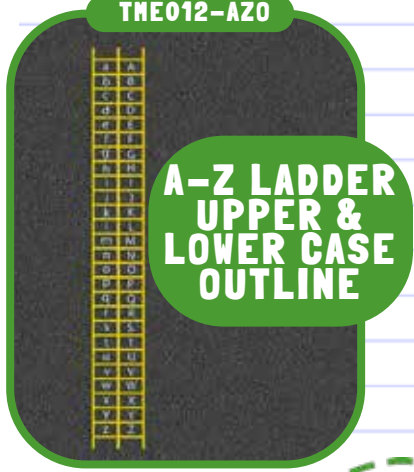

A-Z playground markings are a common sight in school play areas- and for good reason! A versatile option for playground markings, students can run along the winding back of a rainbow alphabet snake, or dragon, bounce along alphabet line markings, or step between different letters to make words and learn their spelling.

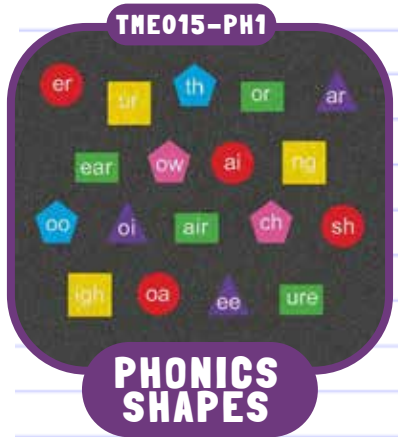

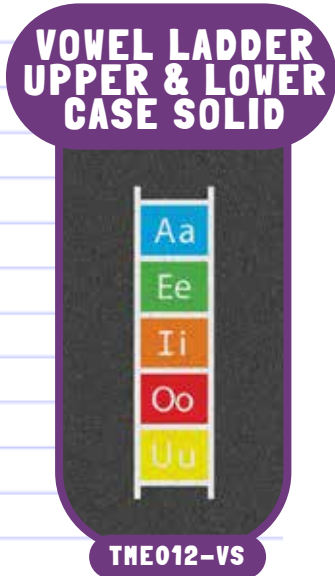

LITERACY

EDUCATION

Explore letter learning in full colour with rainbow letter markings & patterns! With upper and lower case letters and alternative fonts available, schools can customise their outdoor learning areas to suit their needs.

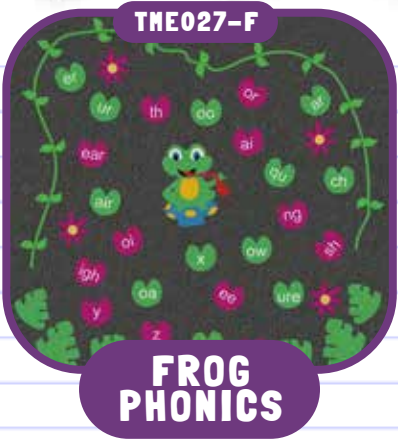

Phonics is an essential element of Key Stage 1 language and literacy, teaching children how spelling structure works, ultimately helping them pronounce unfamiliar words. With markings ranging from simple language structure and vowel sounds to more complex phonics, students of all ages will enjoy these educational markings.

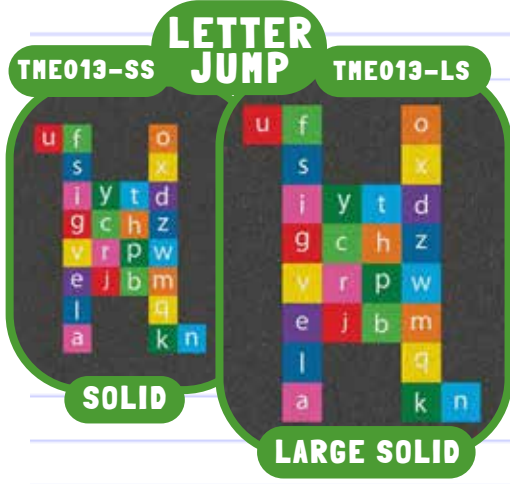

LITERACY

EDUCATION

For some students, a practical interaction with language learning is useful to help them understand phonics and connect them to the mechanisms and rules that they learn in the classroom. Our range of phonics and vowel markings games with puddling splashing bears, leap frog lily pads and happy caterpillars is therefore a useful tool to help children who may otherwise find it difficult to learn literacy skills in a typical school environment.

Combine learning with play to help younger students learn basic language skills that assist with literacy and writing. From active jumping games to rainbow puzzles, letter games ignite the imagination and provide a valuable teaching tool for both outdoor lessons and practice at breaktimes.

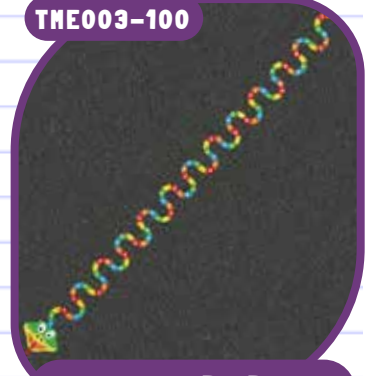

Our alphabet shape spiral showcases how vibrant colours & fun designs can inspire learning outside of the classroom!

Our number and grid games extend mathematics beyond the classroom. Children can be reluctant to learn maths, but with inspiring and fun markings that focus on maths and numbers, they can learn to love it in a completely new and unique way!

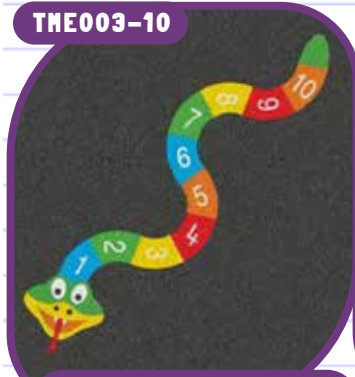

Maths is an essential part of everyday life, so what better way to teach it than by making it a regular part of playtime that kids interact with whenever they cross the playground? We recommend utilising these play markings in a maths area on your playground as a place to familiarise themselves with numbers and maths, practising and testing each other on what they learn in class.

Learning through play with tactile activities introduces maths in a new way that children may understand more intuitively than typical classroom learning.

Children can hop, skip, and jump between numbers in a variety of activities, getting used to reading numbers and developing an understanding of numeracy through interactive activity.

Beyond these vibrant playground staples, characterful animal number learning designs bring a unique charm and fun to maths learning. We recommend these animal number spirals and grids, especially for early years and key stage 1 learners, as a way to inspire an interest in numbers by associating them with fun and imbuing them with personality.

COMPASSES & CLOCKS

EDUCATION

Teach the time and help children understand their place in the world around them with these clock and compass markings. This range includes a variety of designs, colours, and complexities, allowing schools to introduce, demonstrate and teach these key skills to different age groups.

Teaching navigation skills on the playground can set your future adventurers and young navigators off in the right direction!

THE001-S8S

SMILEY COMPASS

These compass markings provide a useful learning resource, demonstrating the cardinal directions visually with vibrant, simple directional lines. Used as a reference point for geography lessons or a tool for practical activities, these 4 & 8-point compasses are the ideal interactive feature for any primary school looking to expand the scope of its outdoor learning.

The human sundial is a unique and special design to truly make your outdoor learning areas special. Installed bespoke to your GPS coordinates, these sundial markings come to life in the sunshine, your students' shadows marking the time with amazing accuracy.

COMPASSES & CLOCKS

EDUCATION

Teaching children how to tell time is the ideal opportunity to get students out on the playground, learning practical lessons with playground clock faces. Acting as the clock hands, children can work together to identify different times of the day, helping them develop spatial awareness while they learn how a clock measures and displays time on an intuitive, physical level.

We have various clock options available, allowing you to choose the design that best suits your pupils' age and your playground's aesthetic. From simple colours, to traditional designs, and of course, happy smiling clocks for younger children, you'll find the right option for you!

More complex scientific concepts are explained with simple, colourful diagrams, perfect for a Key Stage 2 playground. From the planets above us to the plant life all around, showcase the key parts of biology, chemistry, and physics on your playground with markings designed to support Primary School learning.

Our periodic table markings are a great way to prepare Key Stage 2 learners for further education. We recommend that outdoor lessons guide students through the table, highlighting the different groups of elements to explain the purpose of the grid, and even using it for memorisation challenges alongside the iconic elements song!

EACH ELEMENT SQUARE IS 400mm x 400mm

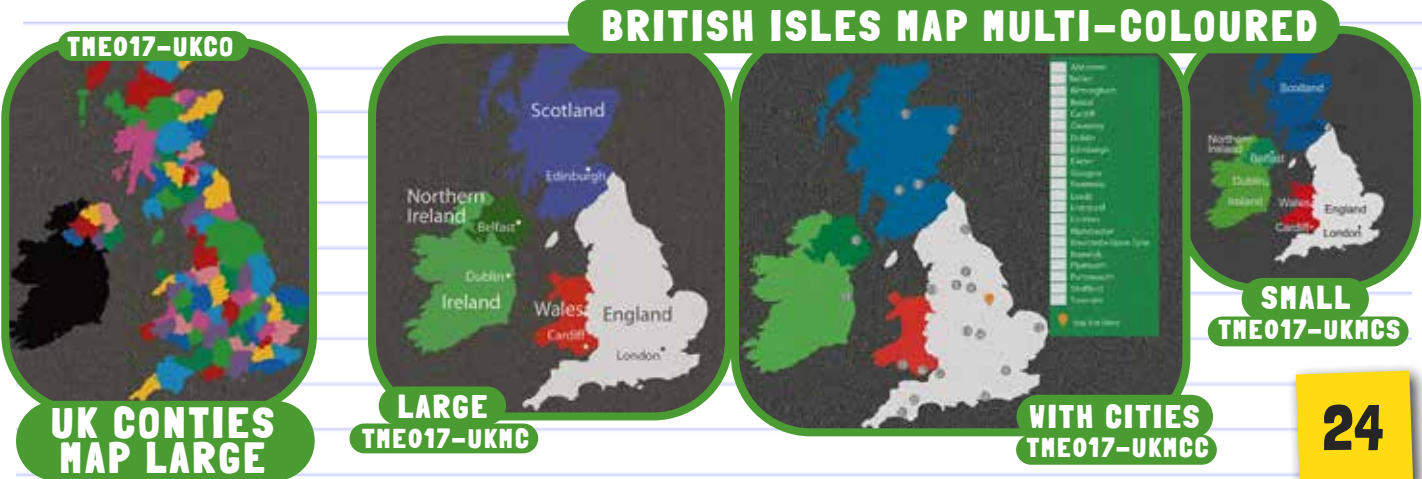

Maps on the playground not only encourage learning, but they also inspire imagination and curiosity about the world around us! Our range includes map options for the UK, British Isles, and the entire World, all using vibrant colour to mark countries, continents, or counties for easy understanding.

The large map designs transform the playground into an atlas of discovery! Children can point out different areas of the world or the country on these maps, challenging their own and their friends' knowledge to name and remember what they learn in geography lessons.

Our British Isles maps are a great way to learn about geography, and bringing a large map to your playground is the best method to turn learning into an active and hands-on experience. Teach the important geography of the country, such as major cities, counties and even constituent countries with these detailed, accurate map markings.

MAPS

EDUCATION

Our World Maps are fantastic educational playground markings to help children improve their knowledge of geographic locations from all around the world.

TNE017-WMC

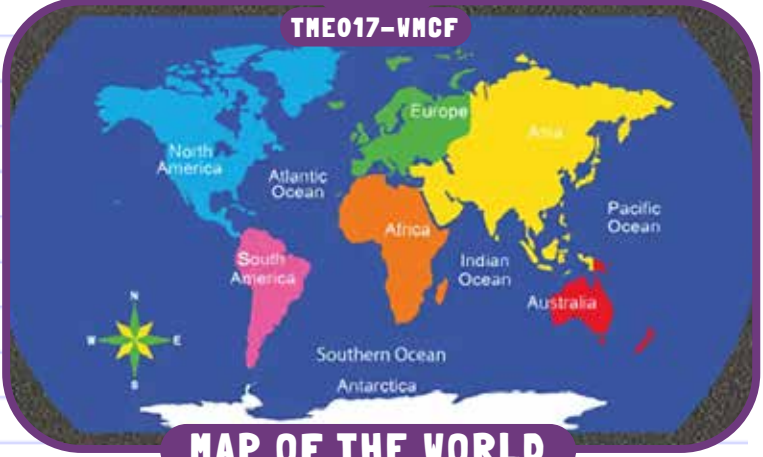

CONTINENTS MAP – LARGE

Teachers can bring their students out onto the playground for lessons with the large-scale illustration of what they are learning. A fun activity for classes is to mark out cities, countries or landmarks with chalk for students to learn, then erase the names and get the children to try to remember what each mark refers to, testing their knowledge and encouraging healthy competition.

SIGN LANGUAGE

EDUCATION

Teach students life skills outside of the classroom with the sign language alphabet. Children can practice and learn the basics of BSL and ASL with clear illustrations and vibrant colour. Make playgrounds an inclusive, welcoming space while educating children on something not typically included in the school curriculum.

BRITISH SIGN LANGUAGE (BSL)

SIGN LANGUAGE ALPHABET

AMERICAN SIGN LANGUAGE (ASL)

TME040-BSL

TME040-ASL

TME040-RBSL

BRITISH SIGN LANGUAGE (BSL)

TME040-RASL

SIGN LANGUAGE WELCOME SIGN

AMERICAN SIGN LANGUAGE (ASL)

Sign language markings are great for schools to welcome all children and parents to school, demonstrating your inclusive value

With a range of fonts and sizes available, we can create the ideal space for learning on the playground, with bright colours to get children interested in learning sign language as a key communication skill.

GAMES

Inspire your students to play and learn together with game markings on the playground. Bring a whole new dimension to fun with colourful snakes and ladders, creative hopscotch, and a wide range of giant classic and inventive board games.

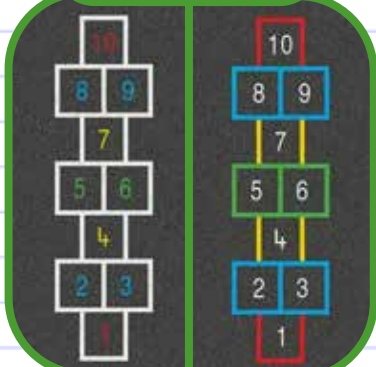

Challenge your students' analytical thinking and coordination with games that inspire friendly competition among peer groups. With games suitable for all ages, children can challenge one another and beat their personal bests during child-led playtime.

Game markings are for more than just inspiring fun (although that is a definite benefit!). They also incorporate elements of physical activity and education. Counting games like hopscotch and Snakes and Ladders, sneak in numbers as a core gameplay element, leading them to practice their counting outside of the classroom as a natural consequence of play. The size of the play markings keeps children active, hopping, skipping, and jumping between game elements, developing gross motor skills.

Combining number skills with physical activity, hopscotch is one of the most popular playground games. As children jump between numbers, they practice their number learning, but also develop gross motor skills and balance, making hopscotch an all-around benefit for any playground.

Turn exercise into a fun experience that can become a core part of the independent play experience for children of any age.

This range includes simple traditional designs for one player, but also provides combined options for up to six players to use at once for a chaotically fun playground game!

HOPSCOTCH

GAMES

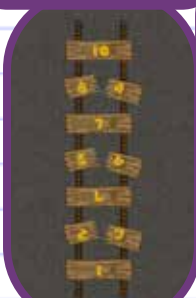

Education should always have a place on the playground, so we've expanded on the traditional hopscotch design to incorporate higher educational concepts beyond basic counting. This includes our language learning designs to teach Key Stage 1 & 2 children the numbers 1-10 in a variety of languages.

Add some adventure to your hopscotch with this fun twist on the traditional game. With friendly characters, positive affirmations, and adventurous themes, children can explore a whole new side of play with these markings!

Games can be as long or short as your school age group requires, as the grids are available in an array of sizes, including: 6x6, 8x8, 10x5, or 10x10 grids. This helps children practice their numeracy skills as they venture out across the grid, adding their dice rolls to their current place, and subtracting if they're unlucky enough to come across a snake.

Competition on the playground is a key part of childhood development that is important for healthy socialisation. Friendly competition in a dynamic game with a clear goal and each player's progress marked on the large colourful playground grid helps children understand one another, deal with complex emotions and experience the social benefits of prescribed play.

TARGETS

GAMES

Fun designs vary from a traditional dartboard at different sizes to suit the size of the playground, to unique playground features like the friendly turtle target or space invaders design.

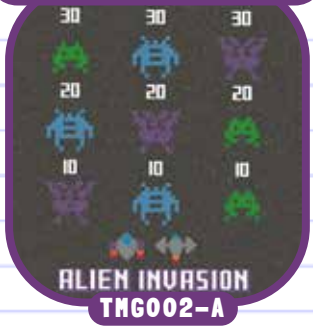

BULLSEYE TARGET
TMG002-B

The four-way target is a popular choice to encourage friendly competition, where children can race to see who can hit a bullseye from each throw-line distance.

TMG002-NT

ALIEN INVASION

ALIEN INVASION
TMG002-A

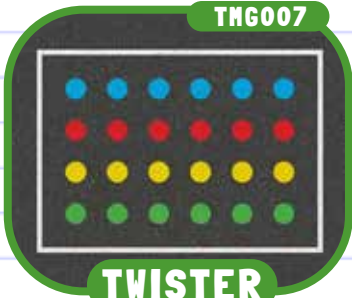

We recommend giving children access to bean bags on the playground as the perfect throwing implement with which younger children can practice.

TRADITIONAL GAMES

GAMES

Embark on a world of fun with vibrant traditional outdoor games that transform dull spaces into dynamic hubs for enjoyment. With a wide range of markings, children have endless opportunities for free play with their peers, competing and strategising to master the game.

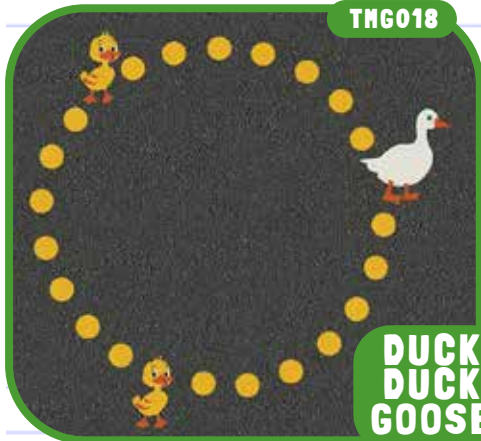

TMG007

TWISTER

These simple and traditional games are playground classics! Ideal for younger children, games like 'Duck, Duck, Goose', and Twister, challenge strategic thinking while engaging the body in physical activity. Whereas, 'What's the Time Mr Wolf?', and other counting games help them learn maths and practice their memory skills.

FITNESS

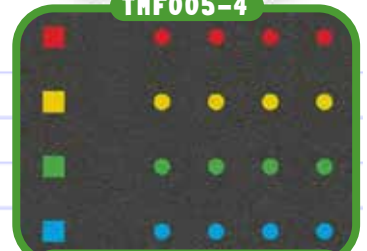

Turn playtime into a cornerstone of healthy development and fitness with play markings designed as a basis for fun and activity. With guidance from our activity circles and fitness trails, kids come together, running, skipping, and jumping on the playground, bringing a new dimension of exercise to play and keeping your students healthy.

The types of activity specified in our fitness markings harness and develop coordination, strength, and agility as part of play. We recommend using these fitness markings as part of warm-ups and cool-downs during PE lessons, or as a way to expend students' physical energy before class begins, so that they approach learning with calmer heads and greater focus.

Our trails develop a range of fitness skills whilst including fun graphics to stimulate children's imaginations. The wear-resistant thermoplastic lines remain sharp and vibrant for a long time, even with children running all over them!

Playgrounds are all about getting active! With this range of energising and engaging thermoplastic playground markings, children can have fun, being inventive and active in a wide array of ways, jumping, running, hopping, and skipping around the playground.

RUNNING TRACK 25m – 6 LINE

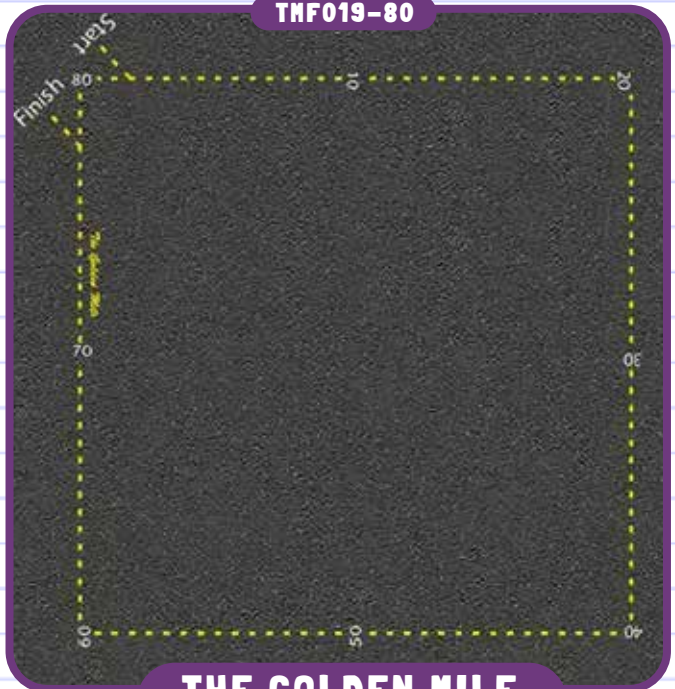

TMF016-25X6

RUNNING TRACK 25m – 4 LINE

TMF016-25X4

Daily Mile tracks are a very popular choice for playgrounds looking to encourage fitness. These are tracks around the playground where children can walk, jog, or run for around 15 minutes per day, building cardiovascular fitness and stamina.

TMF019-80

THE GOLDEN MILE RUNNING LINE 80m

Our designs for running tracks and Daily Mile/ Golden Mile tracks range from simple, clean lines for multi-track running races, to more varied courses that prescribe certain sections of the track for jumping, skipping, or star jumps, making the mile feel like less by breaking it up into sections and distracting with fun activities.

TMF019-F80

THE DAILY MILE FITNESS TRAIL

SPORTS

Discover how your school playground can transform into a sports stadium or arena with just a few play markings! Whether you need dedicated court sports areas or flexible layouts for active play, our designs deliver long-term safety, visibility, and performance.

Our high-quality thermoplastic courts are a great way to bring popular team games to your school and playground. Whether they are used for PE lessons or during breaks, they are perfect for encouraging exercise and an active lifestyle.

If you are looking to install a Multi-Use Games Area at your school, explore our markings options and get in touch for more information on surfacing, fencing, and goal/hoop installations.

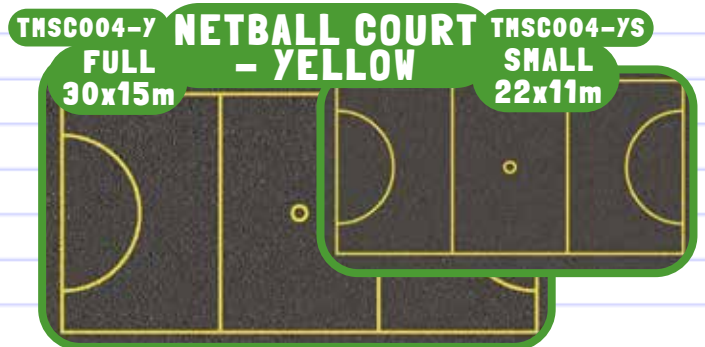

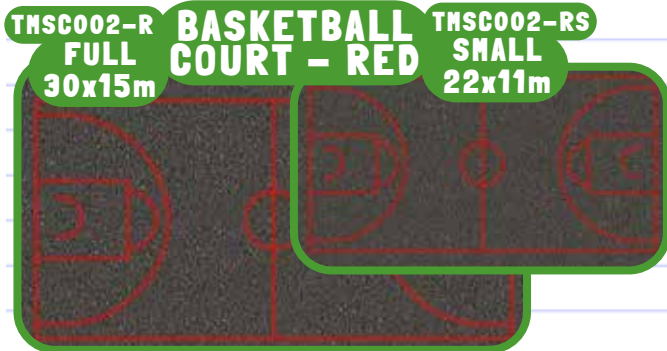

Looking to use your Sports Premium Funding on sports markings and pitch installations for your school? Contact our team to discuss your funding applications and options for using your grants.

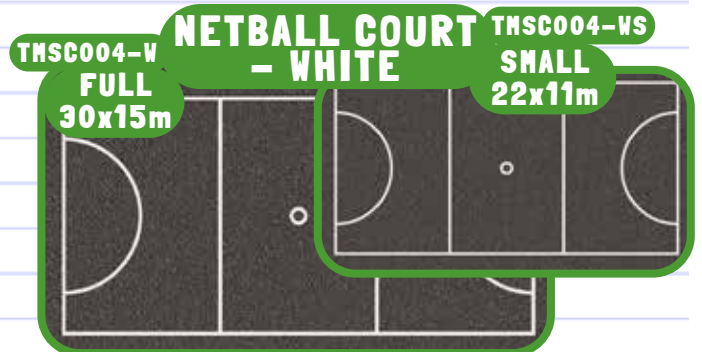

BASKETBALL & NETBALL

SPORTS

Finalised with a net of the appropriate height for your school's age groups, these basketball and netball markings create a versatile site for ball games. Bounce the ball on your playground and use the markings as guides for those hard-to-reach shots.

Our full courts measure 30x15m with our small courts being 22x11m, but if these courts are too large for your designated court space, basketball goal end markings just featuring the end circles are available.

Select the right colour for your courts so the markings are clear for your students to follow as guides for their games. Standing out against your surfaces without wear or fading, thermoplastic markings are the ideal choice for sports markings.

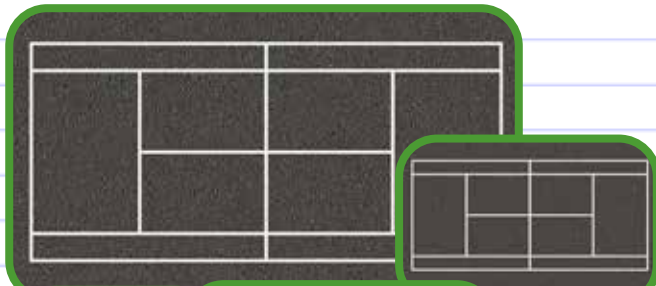

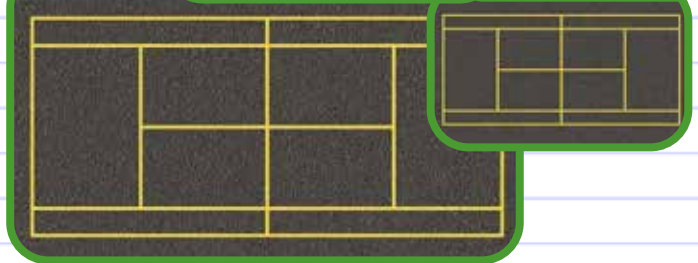

TENNIS

SPORTS

Perfect for PE lessons, breaktimes, or after school clubs, these tennis courts are an easy way to bring sports to the playground.

THSC006-Y FULL 25x11m **TENNIS COURT - YELLOW** THSC006-YS SMALL 12x5.5m

THSC006-W FULL 25x11m **TENNIS COURT - WHITE** THSC006-WS SMALL 12x5.5m

Suitable for doubles or singles tennis, the 25m x 11m court markings provide clear lines to guide player strategies and make the games easier to follow for spectators.

We also provide smaller courts at half size for suit a smaller space or integration within a MUGA (Multi Use Games Area).

ROADS

Customise tracks to fit all shapes and sizes of playgrounds as a safe raceway, practice driveway, or roadway to explore. Perfect for children to play along in toy cars, trikes, or bikes, the roadway markings are slip-proof and long-lasting for a hassle-free addition to your playground.

Road design shaped around the needs of your students helps them develop an awareness of road safety rules as they play. With extra additions like Stop Signs, a Lollypop Person, or roundabouts, children get real practice of what to during different events you find on the road. This situates them perfectly to have increased confidence in their ability to judge situations and stay safe and level-headed during their Key Stage 2 cycling training and when crossing the road in daily life.

TRACKS

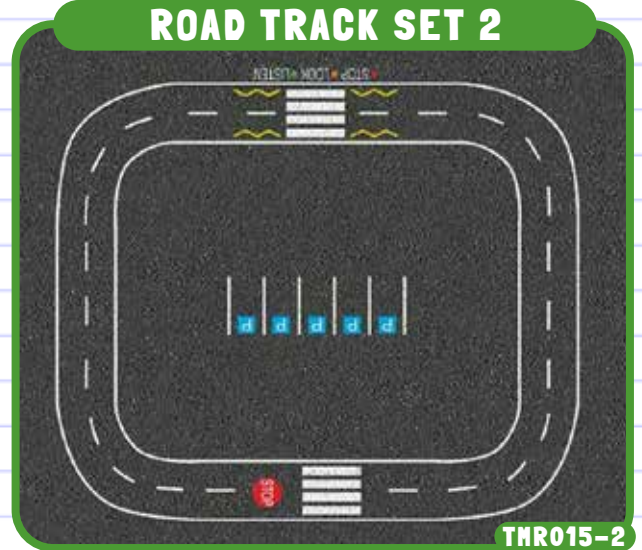

ROADS

Give your students a space to explore that inspires curiosity about everyday life, inspiring new forms of play as part of a larger play town, all while teaching valuable skills about road safety. These Roadway markings are a must-have for primary school playgrounds looking to expand young minds.

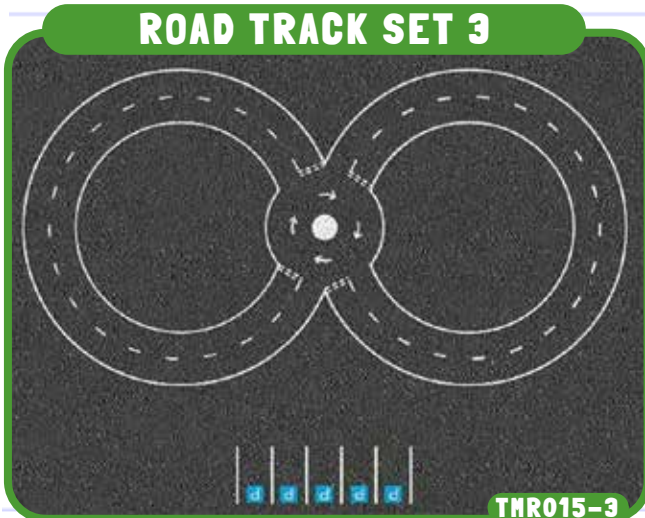

ROAD TRACK SET 1

ROAD TRACK SET 2

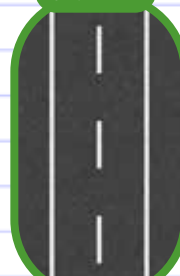

ROAD TRACK SET 3

By bringing road markings to your playground, children get inspired into creative role-playing games that are fun and collaborative, but still grounded in reality, subsequently preparing them for the future. Using small toy cars, bikes, trikes, or larger play cars, they can interact with others and imitate adult drivers to learn the rules of the road all from within the safety of the playground.

From simple roads to junctions, roundabouts, and parking spots, you can build a whole world for your students to explore with our roadway track sets. Combine different elements to customise your track to suit the size and shape of your playground.

Additional signage is available to help prepare Key Stage 1&2 children for the rules of the road. Teaching children to follow directions and understand instructions is important to keep kids safe as they grow up and gain more

THR009

TRAFFIC LIGHTS PAIR

As children get into Key Stage 2 and begin cycling proficiency lessons, they need a safe place to practice more complex manoeuvres. This full-size or half-scale T-Junction replicates a common road layout to teach children how to plan their approach and remain aware of hazards. With practice on these markings, your students will feel safer and more confident going into their proficiency assessments on real roads.

THR021-1

THR021-2

CYCLING PROFICIENCY

TRACKS

ROADS

Expand your roadways with more imaginative markings, building a town around the roads to give the track more character. This can help inspire younger children to engage with the markings in new ways, incorporating the places on the town map into their games and imaginations.

LOLLIPOP PERSON

Approx. 1m

With their toy cars or bikes moving along the road tracks, children learn to navigate to different places in the mini town, helping them to understand map reading and other practical skills.

Populate the world of your playground town with important buildings like hospitals and schools, bringing the road track to life.

Teach children about the importance and function of emergency services with our range of vehicle markings.

EARLY YEARS

Transform your outdoor space into an enriching learning environment that supports children's natural curiosity and social development with colourful, creative, and fun playground markings.

Perfect for nurseries and primary schools, the vibrant designs and encouraging messages of these markings will be loved by your students. With a focus on promoting well-being and holistic development, these markings extend the value of the playground beyond play, to assist in the growth and social health of your students.

MINDFULNESS & WELLBEING

EARLY YEARS

Crafting a safe, secure environment for emotional expression and healthy socialisation is a great way to promote mindfulness on the playground for younger children. As kids enter the education system, they may struggle to interact with peers and make friends. By creating space for them to engage with others and inspire togetherness, all children can come together to have fun more easily.

TMWB002

EMOJI STEPPER

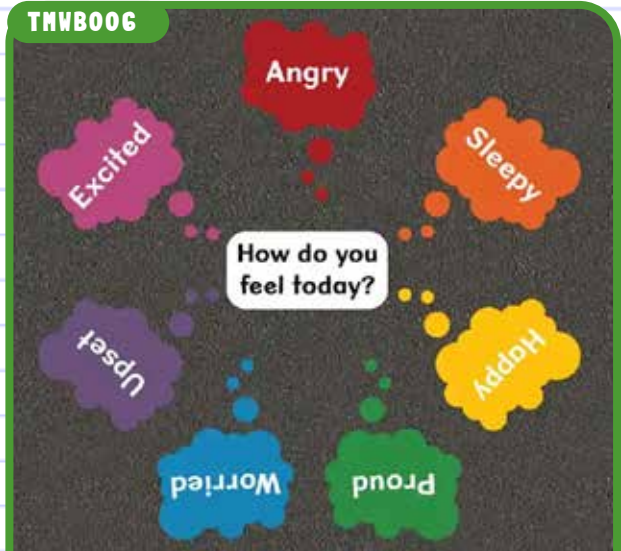

Being able to name a feeling or regulate and express emotions can be difficult for young children. That's why colourful markings encouraging self-understanding and looking inwards to listen to their feelings can be a great help for EYFS learners.

TMWB003

CONFLICT RESOLUTION TILES – 5 PIECES
